

Abdul Quayoom

Full-Stack Web Developer

+92 312 4028095 | abdulquyoom402@gmail.com | abdulquyoom.tech | linkedin.com/in/abdulquyoom4

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, Tailwind CSS v4, Vite, React.js, Next.js
Backend:	Node.js, Express.js, REST API Design, JWT, Bcrypt, CORS
Database:	MongoDB, Mongoose, MongoDB Atlas
Mobile:	Flutter, Dart
DevOps:	Vercel, Railway, Git & GitHub, npm
Testing:	Postman (API testing)

PROJECTS

SnabelSweets — Full-Stack E-Commerce Platform

MongoDB · Express · React · Node.js · Tailwind CSS v4 · Vite · JWT · Multer

- Engineered a production-grade sweets shop platform with product catalog, shopping cart, and JWT-based authentication — live in production serving real users.
- Resolved cross-origin auth issues (CORS misconfiguration, cookie scope) — cutting login failures across Vercel frontend and Railway backend to zero.
- Security:** configured **secure: true**, **sameSite: 'none'** for cross-domain sessions
